### Vans Warped Tour 2011 Update: New Breast Casts!

Friday, August 12th, 2011

Shaun Logan, tour manager of The Expendables decorated this Breast Cast with the message of openly talking about breast cancer. Get the monkey off your chest and talk about it.

If you don't follow us on [Facebook](#) and [Twitter](#) (then you really should) you probably haven't seen some of the new Breast Casts that some of our friends on the [Vans Warped tour](#) have decorated over the past few weeks! The great thing about our Breast Casts is that they serve as an artistic avenue and a way to express our message of prevention and awareness with young people. The Breast Casts allow young people to become more aware of what Keep A Breast does, especially out here on the road.

Longtime friend and artist, David Knapp decorated this Breast Cast and was inspired the Non Toxic Revolution! He used all

recycled items found at Warped Tour.

It's amazing when you see young people talking to their friends as they see the Breast Casts for the first time. It really opens up the floor to discussion to focus on breast cancer and our message of prevention. At the end of the day, it's a cool way to merge art and education together. That's why we stand behind our mantra of Art. Education. Awareness. Action!

Longtime friend and artist, Mell Leal decorated this Breast Cast and was inspired by the Non Toxic Revolution's Plastic Sucks! campaign. She says we should all go back to organic!

Decorated by Kyle of So Long Arletta this 2011 Vans Warped Tour signed Breast Cast was signed by dozens of Warped bands and artists.

## • KAB Mission:

The Keep A Breast Foundation™ is a 501 (c) (3) non-profit organization. Our mission is to help eradicate breast cancer by exposing young people to methods of prevention, early detection and support. Through art events, educational programs and fundraising efforts, we seek to increase breast cancer awareness among young people so they are better equipped to make choices and develop habits that will benefit their long-term health and well-

being.
